Dear Mike:

Subject: National Priorities Listing (NPL) of Jet Propulsion Laboratory's Oak Grove Facility

I have been informed by the chief of the USEPA's Federal Enforcement Section (T-4-6) that JPL-Oak Grove will not be one of the federal facilities added to the NPL in April 1989. A thorough QA/QC of the Hazard Ranking Scoring (HRS) package will be performed prior to JPL's inclusion on the NPL. The data currently used in the draft scoring package will probably not withstand the QA/QC check and additional data will have to be generated that is collected using appropriate sampling and analytical techniques.

Sincerely,

Elizabeth L. Stetz
Environmental Engineer
Occupational Safety and
Environmental Health
