Subject: Federal Facilities Agreement for NASA's Jet Propulsion Laboratory

On November 23, 1992 you were sent a letter by the Environmental Protection Agency, Region 9 regarding the Jet Propulsion Laboratory. That letter provided a brief overview of the site and cited potential natural resources concerns.

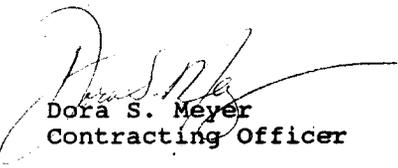

On December 23, 1992, the National Aeronautics and Space Administration (NASA); the United States Environmental Protection Agency Region 9; the California Department of Toxic Substances Control, and the Regional Water Quality Control Board signed a federal facilities agreement for environmental cleanup activities at NASA's Jet Propulsion Laboratory (JPL) in Pasadena.

The joint agreement provides a procedural framework for developing, implementing and monitoring appropriate cleanup activities at JPL and ensuring cooperation and full participation by the parties involved.

In accordance with applicable Superfund law, and as stipulated in the enclosed Federal Facilities Agreement (FFA), the National Aeronautics and Space Administration is forwarding a copy of the subject FFA to you for your review and comment.

Written comments should be sent to:
Public Services Office
Jet Propulsion Laboratory
4800 Oak Grove Drive, M/S 180-205
Pasadena, CA 91109-8099

If you have comments they should be received no later than February 23, 1993.

**Dora S. Meyer
Contracting Officer**
