4 MS. FELLOWS: We're going to put the mike --  
5 put Steve's mike, when he lets loose of it, into here.  
6 And you can come up to the mike and talk.

7 And please state your name for the record.  
8 You don't need to put an address. This is going to be a  
9 public record. So if you don't want your address,  
10 probably just don't say it. You can say where you  
11 live -- Altadena; Pasadena. If you're affiliated with  
12 some group you're representing tonight, feel free to say  
13 that.

14 And let me get a show of hands so we kind of  
15 know how long to let everybody talk.

16 Two --

17 Cynthia, are you going to go?

18 Three?

19 So you guys -- somebody jump up to the mike  
20 and talk. And don't all jump up at once.

21 MS. BOUR: She'll be a hard act to follow. So  
22 I'll go first.

23 I just want to make it understood that going  
24 forward --

25 MS. FOLLOW: Do you want to say your name.

1 MS. BOUR: Oh, I'm sorry.

2 Elizabeth Bour from Altadena.

3 Then going forward, it's really important that  
4 we're aware of everything that's going to involve  
5 construction or anything like that.

6 I don't think that that's proposed here. I  
7 think it's just existing facilities, plus the additional  
8 controls put into place.

9 But we want to also be notified and advised as  
10 to whether or not it's under CEQA or NEPA -- California  
11 or Federal level environmental review.

12 Thank you.

13 MS. FELLOWS: Next.

14 MS. KRUELLS: Is there anybody else?

15 Just me?

16 MS. FELLOWS: There's a few lurkers.

17 MR. HAYNES: Pat Haynes, Altadena.

18 Comment: I encourage the report to include a  
19 seismic study. And I also, as a comment, encourage the  
20 report to include data that compares the energy costs of  
21 different alternative pumping systems.

22 MS. FELLOWS: Okay. Marietta?

23 MS. KRUELLS: Okay. It will just take me a  
24 second here. I think this is on target.

25 Marietta KrueLLs, Altadena.

1                   Have City of Pasadena Raymond Basin Water  
2 District and the Los Angeles County Department of Public  
3 Works been advised of the need to keep the auquaphor  
4 flush with water in the Arroyo Seco, California area?

5                   With the continued drought and the significant  
6 drop in the water table, it is imperative every effort  
7 is made to percolate as much water as possible in this  
8 area of the Monk Hill Basin -- Monk Hill sub-area.

9                   Thank you.

10                  MS. FELLOWS: Cynthia?

11                  Do we have any other comments besides Cynthia?

12                  She seems reluctant to jump up.

13                  You can submit them in writing. It's up to  
14 you.

15                  Okay. Well, then, we'll end the formal  
16 transcript.
